

ReadyGuard Plus Security System

Protected and Connected
Security Made Simple

Stay Safe, in Touch and in the Know with ReadyGuard

For peace of mind, you need to know that what you cherish most—your family and your home—are safe and secure. Look no further than First Alert Professional's ReadyGuard Plus security system. ReadyGuard Plus provides superior, round-the-clock security—protecting your property and the people you love. But ReadyGuard Plus does so much more than keep you safe.

For peace of mind, you need to know that what you cherish most—your family and your home—are safe and secure. Look no further than First Alert Professional's ReadyGuard Plus security system.

ReadyGuard Plus provides superior, round-the-clock security—protecting your property and the people you love. But ReadyGuard Plus does so much more than keep you safe.

When used with Total Connect Remote Services, ReadyGuard Plus enables you to receive important alerts, keep a close eye on your home and control your security system remotely via the Internet and the same mobile devices you use each and every day.

- Arm, disarm and check the status of your security system via your PC, laptop, cell phone, BlackBerry®, iPhone®, iPod touch® or any compatible wireless handheld device
- Receive e-mail alerts about important events, including:
 - When your children arrive home from school
 - When flood or extreme temperature change is detected
 - When a safe, liquor cabinet or doors to restricted areas have been opened
 - When motion is sensed in a protected area
 - If a protected asset is moved (e.g. a painting, flat screen TV, etc.)
- Multiple account capability—great for vacation homes and investment properties

Isn't it time you got connected?

iPhone and iPod touch are registered trademarks of Apple Inc.

Security Made Simple

The user-friendly ReadyGuard Plus puts security and convenience at your fingertips. The vibrant, easy-to-read display is easier to use than traditional security systems—announcing the exact type and location of an alarm in plain English and giving you the information you need so you can react quickly. Sleek, stylish and portable, it blends with any décor and can be placed on a wall or tabletop.

Two-way voice communication with the central station operator through the alarm system helps ensure that the proper emergency response personnel will be dispatched to your home.

The “Follow Me” feature enables the system to call and alert you to alarms and important reminders.

Home control options enable you to turn lights on or off and control garage doors with the touch of a button.

Compact, stylish sensors can be custom-painted to match any décor. You can also protect doors, open areas and windows with contacts, glassbreaks and motion sensors.

Monitored wireless smoke, heat and carbon monoxide detectors protect you and your family from life-threatening hazards.

The Family Message Center lets everyone record and playback voice messages for one another.

Wireless keypads announce system status in clear, spoken English.

Wireless Asset Protection Sensors can alert you when an attempt is made to move or disturb valuable objects within your home.

Purchasing a security system for your home or business is an important decision. Start by choosing a First Alert Professional or Honeywell authorized dealer who will provide the best products and services.

Authorized dealers own and operate security businesses in the communities they serve and are dedicated to promoting life safety. They are hand-picked to represent First Alert Professional and Honeywell security systems exclusively and are trained by the most experienced security professionals in the industry.

First Alert Professional Security Systems are designed and manufactured by Honeywell, an industry leader in security technology and a name you can trust.

Choose the partner that cares about you, your family, your business and your community. Choose a First Alert Professional or Honeywell authorized dealer.
