

Wireless Access Point

CONVENIENT, DEPENDABLE CONNECTIVITY FOR THE FAMILY AND HOME OFFICE

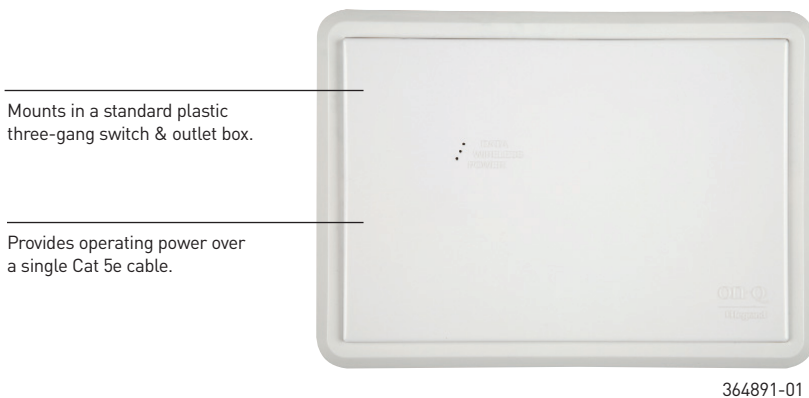

IN-CEILING WIRELESS ACCESS POINT, 802.11g

FEATURES

- Recessed mounting allows the access point to be located in the ceiling or wall without being aesthetically intrusive
- Mounts in a standard plastic three-gang switch and outlet box
- Supports seamless roaming throughout the covered area
- Includes built-in twin high-sensitivity antennas
- Includes 802.11g wireless technology
- 10/100Base-T Ethernet (Wide Area Network WAN) port to connect a broadband modem
- Backward compatible with 802.11b devices
- Room to expand and add users and peripherals
- Supports data rates up to 54 Mbps wirelessly
- Allows real-time online interactive gaming
- Firewall security features include:
 - Wi-Fi® Protected Access (WPA) with Temporal Key Integrity Protocol (TKIP)
 - Legacy 64-bit and 128-bit Wired Equivalent Privacy (WEP) encryption
 - 802.1X access control
- Powered over Cat 5e cable to remotely power the access point over the same Cat 5e cable that connects to the wired LAN

IN-WALL WIRELESS ACCESS POINT, 802.11g

CALL FOR MORE INFORMATION:
(800) 321-2343

The first wireless access point specifically designed for residential use, the On-Q Wireless Access Point offers easy installation, an unobtrusive design, tetherless roaming and user-friendly operation. Its Power over Cat 5e design requires only a single cable for both power and data, making installation simple.

WIRELESS ACCESS POINT HIGHLIGHTS

EASY TO INSTALL Our unique design only needs a single run of Cat 5e cable for both power and data which extends placement options, shortens installation time, and lowers labor costs.

HIGH-SPEED TECHNOLOGY Incorporates 54 Mbps 802.11g standard for the fastest data transmission.

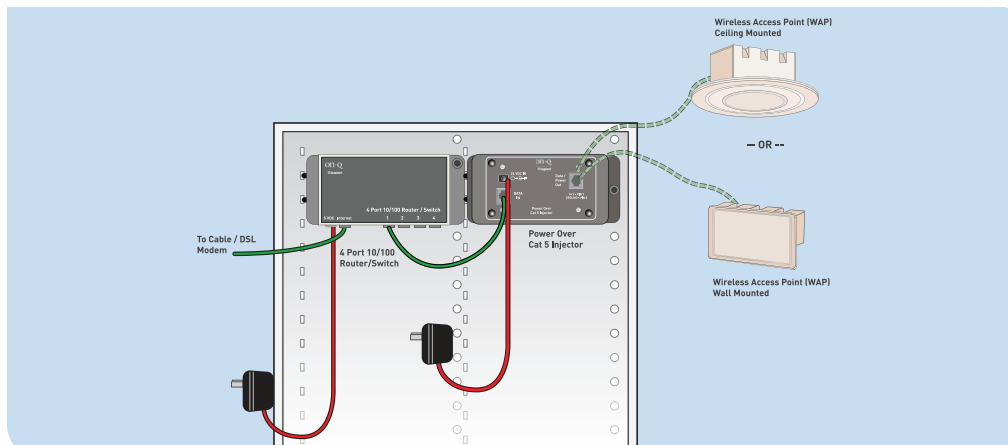

INTEGRATED SECURITY Built-in advanced security control protects data from computer hackers.

COMPLETE NETWORKING Supports wireless connectivity to computers and PDAs, and also bridges connectivity to printers, games, DVRs and other network devices.
